Speed Watch

On Thursday 15th July, local volunteers joined other speedwatch groups across the UK in a day of action.

Despite there being a road closure on the A525, in a little over 30 minutes, 29 vehicles were recorded travelling through Burleydam village, with speeds varying from 36 to 59mph!

The Speedwatch volunteers will continue to be active throughout the summer months.

Drivers of vehicles travelling in excess of the limit will receive a written warning, and their details will be entered onto the Police database. Repeat offenders living locally will also receive a visit from an officer, to discuss the dangers of speeding.
